

Treatment Phase Token Log

5 points

Name: _____ ID#: _____

Directions: Record the number of tokens earned each day of your treatment phase and then calculate weekly totals. You have been provided columns for up to 8 weeks on this table but other columns can be added as needed. Remember, for your course project, you are only required to record for 3 weeks. Feel free to continue your project beyond though.

	Week							
Day	1	2	3	4	5	6	7	8
1								
2								
3								
4								
5								
6								
7								
Extra Points by Week								
Weekly Totals								
Treatment Phase Total -					XXX			

You will use the information in this log from the first three weeks to graph the number of tokens earned. Feel free to submit the graph with this assignment but do note that it is not technically due now. Submitting now gives you a chance to obtain feedback from your instructor. You would complete all required elements from the Graphing Your Data from Baseline and Treatment Phase assignment minus the phase line and label.
